NoBo Descent from Doll Flats to US 19E

NOBO MILE: 394.1

SOBO MILE: 1796.8

We made a typo during a data update which caused the section of elevation profile in Tennessee between Doll Flats & US 19E to compress. The elevation profile is correct, but the net 1705 ft descent spans 3 miles not 0.7 miles. This typo is confined to this section of trail and did not effect the rest of the profile.

New "Taj Mahal" Privy & Bear Box at Alec Kennedy Shelter

NOBO MILE: 1118.8

SOBO MILE: 1072.1

Hikers now have a beautiful new "Taj Majal" privy to look forward to at Alec Kennedy Shelter. Built late fall 2017. Also, there's a very nice metal bear box. We think this was probably the work of the awesome volunteers of the Cumberland Valley Appalachian Trail Club. Be sure to show your appreciation. <http://www.cvatchclub.org/>
